

# SPENCER THOMPSON

## WEB DEVELOPER

spencer.thompson@mail.mcgill.ca  
416 550 8930

### / Portfolio

[www.spencerthompson.ca](http://www.spencerthompson.ca)

### / Projects

#### The Chess Profiler

- Uses the [chess.com](https://chess.com) API to retrieve and display data about a user's profile and recent game statistics. [Github](#)

#### The Joke Book

- A user can save and rate jokes using firebase. Built in React. [Github](#)

#### Not so Trivial Pursuit

- A trivia game where users can choose the category, difficulty and number of questions. Users can also save progress and resume later. [Github](#)

#### Meme Maker

- Displays memes from the Imgflip API and lets the user add captions (or have random captions). [Github](#)

### / Languages

English, intermediate French.

### / About Me

I am a front-end developer with a background in acting and improv. I enjoy building accessible and responsive websites, and finding innovative ways to solve complex problems along the way. I collaborate well with others, adding levity and humour to any project. My experience in technical sales allows me to interact with clients with ease.

### / Skills

HTML	SCSS	Firebase
